

For your  
**BUSINESS**

## NEW - Business Custom Incentive Program

The Business Custom Incentive Program is designed to help business customers make smart, energy efficient decisions that reduce gas consumption and operating costs. If you are a Vectren natural gas customer, and you have a project that isn't covered through the existing rebate programs, call to see if your project qualifies! As of April 1, 2008, this program offers grants up to \$25,000 for qualified projects.

- Eligible customer rate class 120, 125, 220 or 225
- First come-first served basis while funds last
- Grant maximum may pay up to 30% of the project cost
- Project energy costs  $\geq$  7500 therms-\$1.00/therm
- Project energy costs  $\leq$  7500 therms-\$0.50/therm

For information about qualified projects, contact Vectren's Conservation Connection at 866-240-8476.
